

Build a habit, one day at a time

Streak is a habit tracker for people who have quit three of them.

The problem

Most habit apps reward a perfect record, so one missed day ends the streak and the motivation with it.

What you get

A tracker that treats a miss as data, not failure.

- A daily check-in that takes four seconds
- Streak repair: one grace day a month
- Weekly patterns that show what actually triggers the habit

Proof

"I have kept a morning run going for nine weeks — the longest by far." — Dana W., beta user

Investment

What is included	Amount
Free	\$0
Plus	\$3.99/month

Next step: Start today at streak.app — the first habit and the streak repair are free.
